# What is Atomy Pomegranate Mixed Fruit Jelly?

**Manufactured with high quality pomegranate from Antalya, Turkey**

A city with clean air from the Mediterranean sea and abundant sunshine, helping the pomegranates to grow plump and full of goodness.

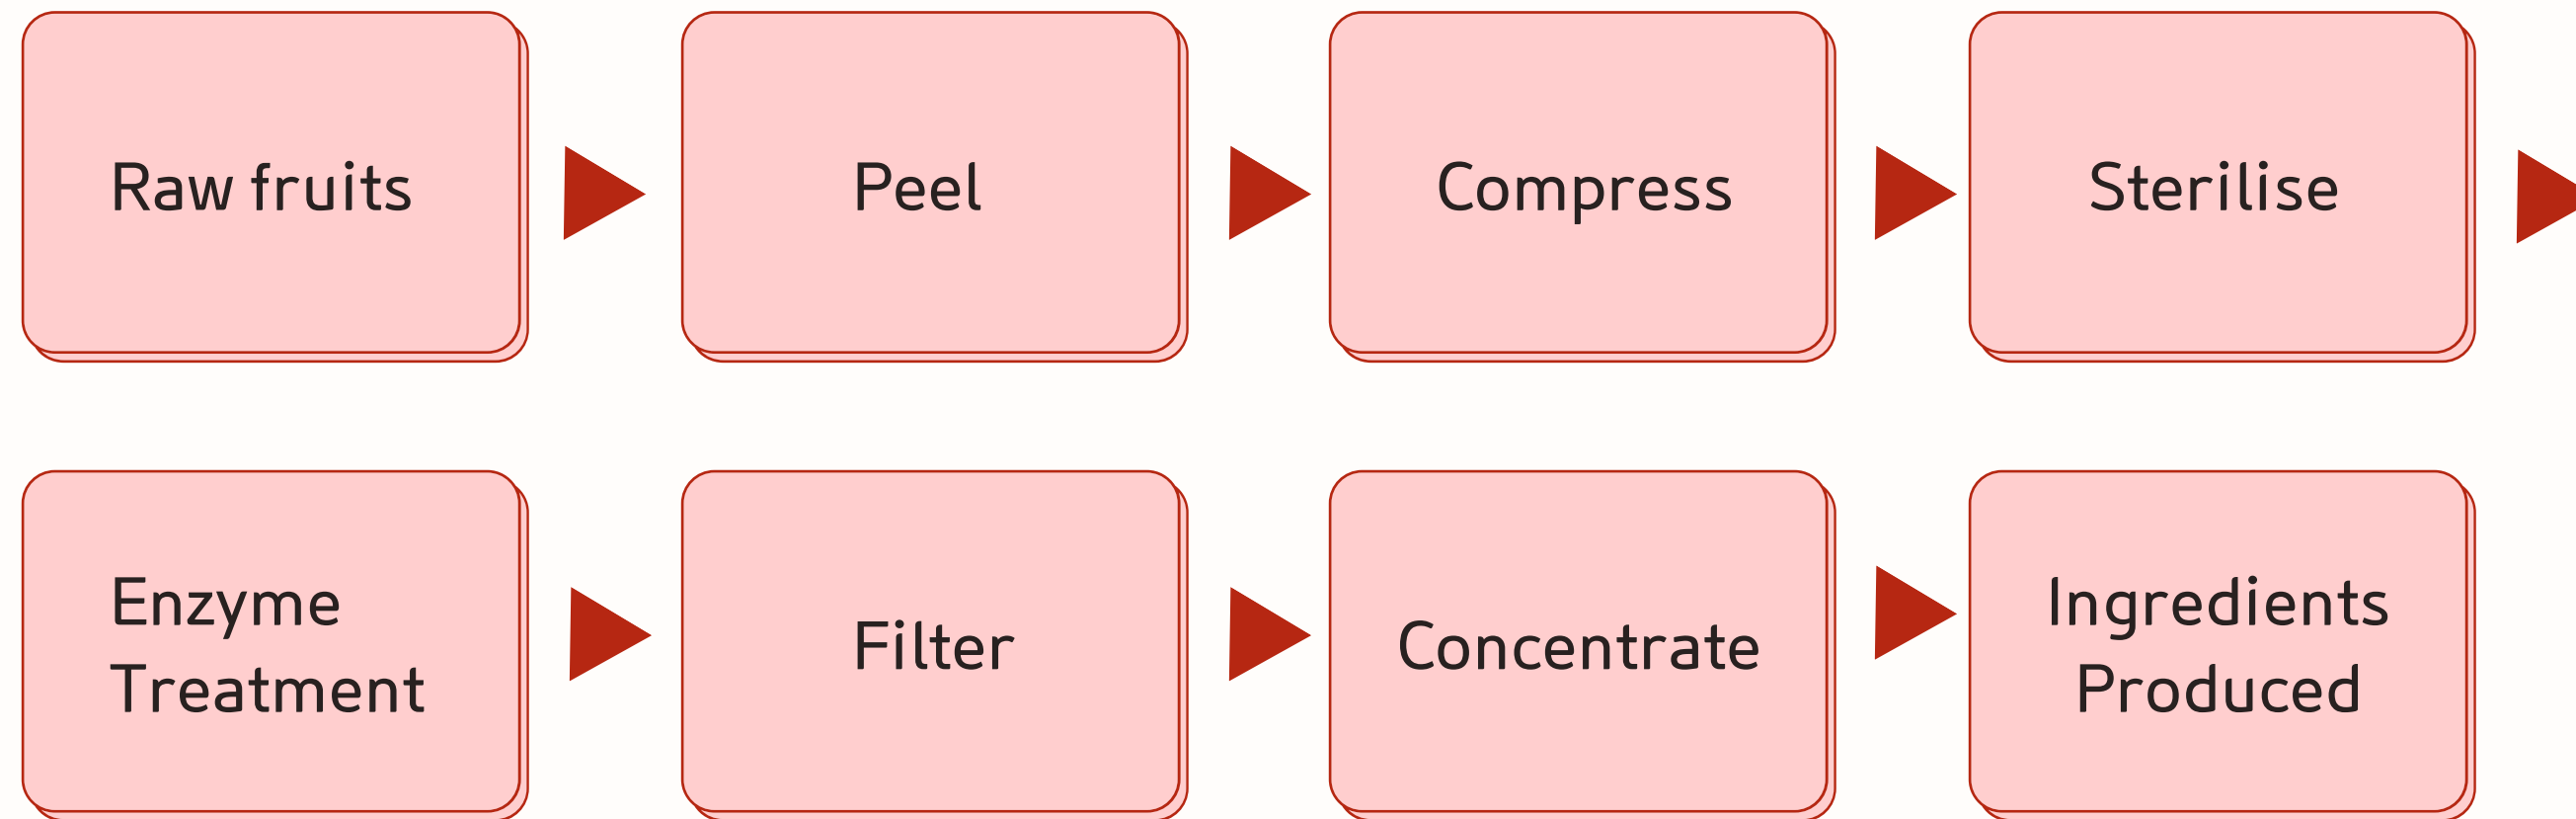

## We extract Ellagic Acid from the pomegrante seeds

Ellagic Acid contains antioxidant that removes toxins from the body and protects against harmful molecules.

We are able to extract an increased amount of Ellagic Acid through a 30-step patented method.

## Our Production Method (at a glance)

More Ellagic Acid is extracted through the enzyme treatment process (2.4mg/g).  
The process of raw substances is standardised for safety and quality control.

\*The production steps above are broken down into thirty steps in reality,  
known as the 30-step patented method.

## Rich in pomegranate concentrate

A fruit good for beauty and health especially women's.

x 26 times

Wow!

2 packs of Atomy's Pomegranate Mixed Fruit Jelly contain nearly 26 times more Ellagic Acid than pomegranate fruit juice of the same amount!

## Helps moisturise skin

With its rich amount of pomegranate concentrate and Ellagic Acid, it helps moisturise the skin, with less loss of moisture from skin's surface, and decreased amount of dead skin cells.

## Reduce menopausal symptoms

The high amount of Ellagic Acid is also useful in relieving menopausal symptoms.

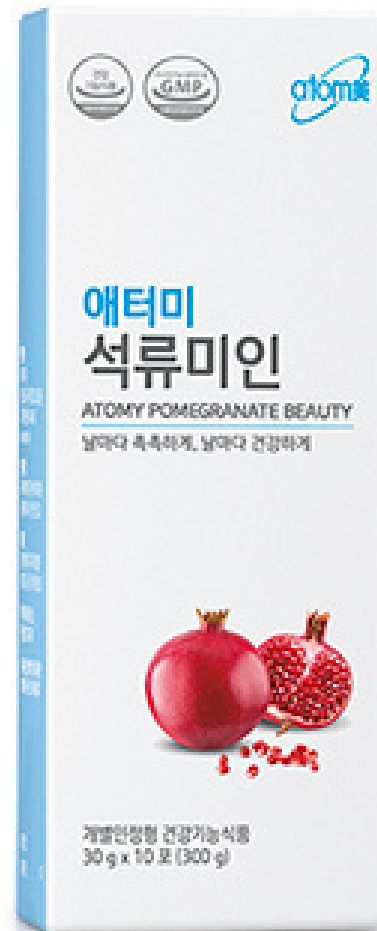

**Eat it anywhere, at any time!**

Easy-to-eat jelly stick, with  
sweet tangy taste and chewy texture.

# Product information

Net weight: 900g (15g x 60 packs)

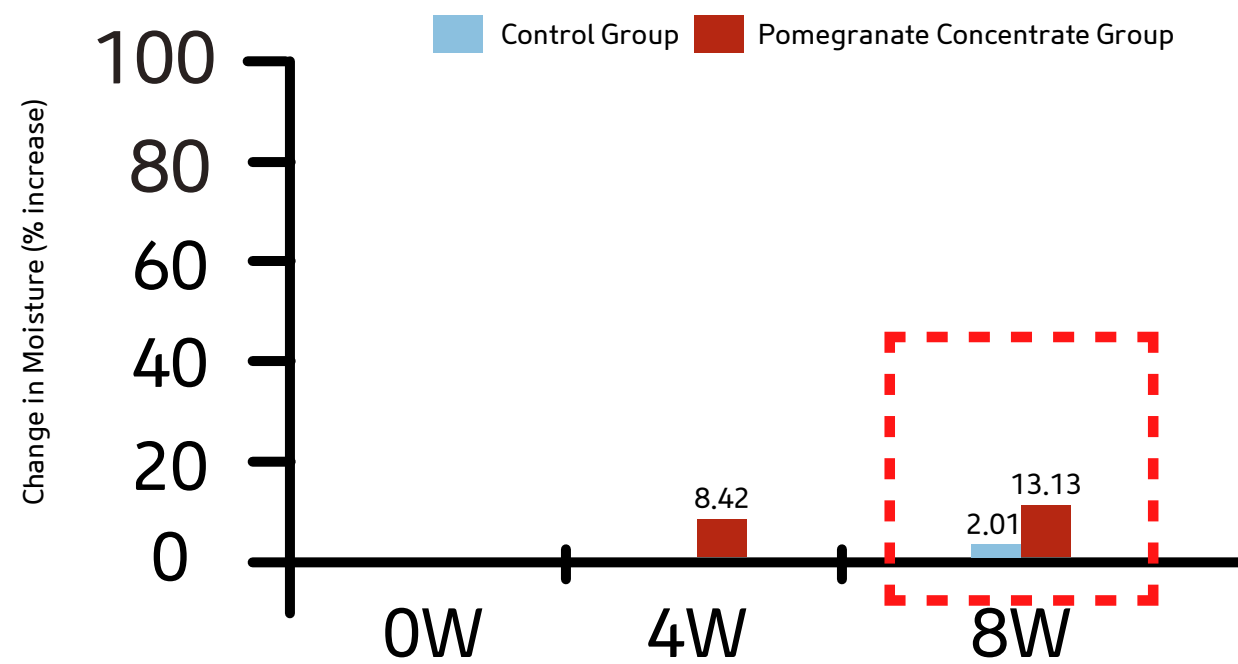

Daily intake: 2 packs (contains 13.3 g of pomegranate concentrate)
